

I have a dream to make this peaceful and wonderful world a fantastic place. I would like to stop the terrible wars. I would like to make the economy better. I would also like to give those people who don't have any clothes, food, or shoes, a better place to stay.

These days, people are fighting and having terrible wars. I would like to stop this because it's not fair for people to lose their family members or their own lives. Another reason I would like to stop wars is because those people who are getting killed might be innocent.

Our economy is important because if people don't have money, they can lose their jobs. I would like to better the economy by stopping the war because all the money is going towards it.

Some problems we are having are people losing their things, like their homes and jobs. Another problem is that adults don't have enough money to pay their bills or rent.

Poor people don't have anything except each other. I would like to give those people who are hard ~~workers~~ workers clothes, food, shoes, and a place to stay. I would like to do this because, it's not fair for those people to work all day and don't have anything. Another reason is because they are poor and get little money. If they get little money they can't even buy a pair of shoes.

These dreams I will like to accomplish some day, because I would like this world to become peaceful, wonderful, and fantastic. I would like terrible wars to stop.
