

St. Patrick's Day is celebrated in Ireland by the Irish people. It is good luck to find a four-leaf clover. It is good luck to find a leprechaun. It can lead you to a pot of gold. Leprechauns are lucky.

We also celebrated it in the United States. It is celebrated on March 17th.

Ireland is in the north part of Europe. It is next to England, the United Kingdom. Ireland is beautiful. It is surrounded by water.

Ireland is mostly green. People wear green on St. Patrick's Day. Ireland is known for its many castles. There is a route called the Kings of Rings. If you kiss the top part of a castle, you'll get lucky.

My grandfather's birthday is on St. Patrick's Day. My classmates' family members' birthday is on St. Patrick's Day, too.

In Ireland, people write Limericks. Limericks have 5 lines. Lines 1, 2 and 5 have to rhyme and have 7-10 syllables. Lines 3 and 4 have to rhyme and have 5-7 syllables. Limericks are funny.
